

## WAR BLIGHTS U. S. CUSTOMS RECEIPTS

Heavy Cut in Carrier Service Means Blow to Revenue.

## HUGE SUMS FOR FEDERAL EXPENSES

State Department Deluged with Inquiries About Americans in War Zone.

[From The Tribune Bureau.] Washington, Aug. 2.—It is evident that there is consternation in the administration as a result of the European war over the great tasks of protecting financial interests of this country and the safeguarding of Americans abroad who may be in distress. Secretary Bryan alone remains calm and confident that no harm or serious inconvenience will come to Americans residing in Europe.

The customs receipts that pour into the government coffers at the port of New York alone will dwindle as long as the foreign-owned vessels are required for military uses and as long as the danger of seizure on the high seas prevails. Of the total tonnage of 38,000,000 entering and clearing the ports of the United States in 1913, 14,000,000 entered and cleared New York. With the important transatlantic lines out of commission and the United States practically without vessels of its own, the losses of the United States, for a time at least, will amount to the hundreds of thousands of dollars a day.

**Foreign Service Overloaded.** The administration is also confronted with the probability that it will be necessary to increase the numerical strength of the foreign service to handle the increased business which will devolve upon the diplomatic and consular officers of the United States. If the diplomatic business of the war zone is to be transacted through American embassies and legations, assistance will probably be necessary.

The disturbed commercial conditions, the work of providing a merchant marine in accordance with the proposed amendment of the law relating to American registry and the increase of consular duties, due to the suspension of customary methods of business, will place a great burden upon the consular service. At present no money is available for that purpose. All the money appropriated for the service is being used, and the State Department is even without funds to aid the Americans who have been trapped in European countries by the sudden outbreak of hostilities.

While various methods of relieving Americans abroad are under discussion, no decision has been reached on the question of sending of transports to foreign ports. One plan which has been discussed is the issuance of some form of certificates by American diplomatic and consular representatives abroad, which certificates would be accepted for transportation. It is suggested that it will be impossible to reach a conclusion regarding the use of army transports for the transportation of stranded Americans until the Secretary of War returns to this city on Tuesday. He is now at Sea Girt, N. J.

The Department of State is being deluged with letters and telegrams from friends and relatives of persons returning in Europe. Secretary Bryan has arranged to give out to the press the names of all persons who are in any difficulty, so that the public may assume that "no news is good news" in the event that there is any anxiety about any one in the war zone.

Inquiries were made to-day regarding Mrs. Henry Taft, Mr. and Mrs. John D. Lindsay and Mrs. Gilbert, all of New York, who are supposed to be at or near Lucerne, Switzerland.

## WAR STEPS IN AUSTRALIA

Commonwealth Government Quick to Take Action.

Sydney, New South Wales, Aug. 2.—The Commonwealth government has taken precautionary steps to protect the cable station and guard the wireless stations. The forts are being manned. These measures require a partial mobilization of the citizen forces.

The port of Sydney will be closed each night. All vessels entering the defensive ports of Australia will be subjected to a special examination.

The crews of German vessels in Sydney harbor have been forbidden shore leave, and the German steamer "Cunaut" has been ordered to remain at Brisbane.

## Make Your War Plans Now

The security exchanges of the world have closed on account of the war in Europe. This step has been deemed necessary because of the manner in which foreign investors are dumping securities on the market.

The war has cut the price of American securities. It has not cut their dividends. The yield which you may obtain on the best home securities is the most liberal which has been attainable in years. The closing of the exchanges permits you to make careful and deliberate plans for taking advantage of the investment opportunity which the war offers you.

We are accepting orders to be executed on the reopening of the New York Stock Exchange.

Whether you desire to purchase one share or one thousand shares, our Investment Department is prepared to help you invest.

Send for List 245, "Ten shares of stock for less than \$1,000." The average of safety is high. The average yield is over 6%. You can secure them on the Partial Payment Plan for an initial deposit of \$225.

## PARIS AIRMEN MOBILIZED

'Buses for Army Commissariat. Newspapers in 2 Sheets.

Paris, Aug. 2.—The aviators have mobilized, and to-day Peugeot and Regni military airmen, told The Tribune they were enthusiastically concerning the chances of a swift, manageable aeroplane when opposed to a dirigible. "What chance," they ask, "has a dirigible against an aeroplane, under a capable pilot, flying 100 miles an hour?"

The aviators are confident of victory for France and express not the slightest sign of fear of engaging in conflicts in the air.

The motor omnibuses of Paris have already been requisitioned. With tops and inside seats removed, they will be used to carry provisions for the army.

Most of the Paris newspapers have reduced their size, the eight-page sheets cutting down to four pages and the four to two. "La Presse" this afternoon printed one small leaflet, giving the news of Germany crossing the French frontier.

On every side the questions must be asked: the public are what Great Britain will do, where is the British fleet, and will a British force be landed on the Continent.

The male population is rapidly disappearing from Paris, except those above forty-five years old and those under twenty.

The underground railway probably will stop running to-morrow. The telephone, telegraph, railways and mails are daily becoming less available for public use.

## 3,000 AMERICANS MAROONED IN PARIS

Host Unable Either to Get Funds from Home or to Leave France.

[By Cable to The Tribune.] Paris, Aug. 2.—Almost three thousand Americans are marooned in Paris. All are anxious to go home, but the trains are monopolized by mobilization and exit by motor cars is forbidden. Moreover, no passage room, not even steerage, remains on westbound ships.

Many of these Americans are unable to obtain money. There are no remittances from the United States, and no hotel accommodations for them. They are stranded. They are thronging the embassy and the consulate, and at midnight the time limit expires for foreigners, whether residents or transient visitors, to leave Paris. After midnight that is at the end of the first day of mobilization—they will be unable to get out of Paris until they have presented themselves at the military district headquarters for their consignment, where, after establishing their identity by certificates from the consulate or the embassy they may obtain "permits de séjour," or residence permits. This must be done on the third or fourth day of mobilization, Tuesday or Wednesday.

Afterward they may be allowed to leave if provided with passports signed by the Prefect. All this caused commotion among the Americans and other foreigners.

With the help of Ambassador Herrick an American committee has been chosen to take measures to aid Americans in difficulty to obtain shelter and money during their enforced stay in Paris. At the suggestion of former United States Senator Chauncey Deane, Judge Elbert H. Gary was to-day elected chairman of the committee, and H. H. Henshaw, Harjes secretary; other members being Judge Kellogg, James Deering, Charles Allen, Henry M. Priest, Leroy White, William S. Dalliba, Laurence Bonet, Charles Carroll, Joseph Couderet and Percy Pierpont.

Thomas Nelson Page, the American Ambassador to Italy, who was present at the meeting, expressed what was the unanimous opinion of the committee, that the experience and the knowledge of the situation possessed by Ambassador Herrick could be invaluable in securing practical relief to Americans in distress here. To transfer ambassadors just now, Mr. Page said, no matter how able Mr. Herrick's successor may be, would be like swapping horses while crossing a stream.

Ambassador Jusserand also appeared at the meeting.

The committee sent a message to the State Department in Washington suggesting that the United States treasury facilitate the cashing of letters of credit and travelers' checks, and that it deposit temporarily a sum in gold in a New York bank for immediate export to Paris.

Americans in Paris are greatly pleased that the State Department has decided to leave Mr. Herrick in charge of the embassy here until the present crisis is over.

Antwerp, Aug. 2.—American tourists here who are endeavoring to return home are in a panic condition. The steamer Kronland sailed to-day with a full complement of passengers, many of whom left their baggage behind rather than remain in Europe.

Members of the Chicago Railway Commission visited the port and terminals to-day, but they fear they cannot continue their tour owing to conditions in Germany and Austria.

Business is paralyzed. The authorities are seriously considering the adoption of an emergency act to stop specie payments for a time. It is feared that not enough money will be available if the run on the banks continues.

"July 31 Germany called to the flag the last five classes of her reservists. This she could do by means of the martial law proclaimed by Germany, which permitted her to keep this news secret."

Consequently, "July 31 mobilization was going on in Germany."

In spite of this France waited until August 1, at 5 o'clock in the afternoon, to order a general mobilization. This was done for the purpose of making it clear that she was not the aggressive power, and also that she might be able to claim British support.

"General mobilization was ordered in France August 1 at 5 o'clock in the afternoon. The day of mobilization began August 2 at midnight."

The French Embassy issued another statement, as follows:

"French territory has been invaded at Cirey, and German troops are marching on the fort at Cirey. This act has been committed without a declaration of war. The German Ambassador is at present in Paris."

Luxemburg, Aug. 2.—The Minister of State of Luxemburg has received a telegram from the German Imperial Chancellery declaring that the military measures taken by Germany in Luxemburg do not constitute a hostile act against the grand duchy.

While the Metropolitan Club continued to meet the demands for crop moving and other purposes.

"It is a relief," Mr. McAdoo already announced, to permit the issuance of similar currency to banks in other sections of the country upon their application to the Treasury Department, in accordance with the provisions of the Aldrich-Vreeland act."

This statement was followed by this announcement from the Clearing House Association, made public by William H. Woodward:

## PRIVATE BANKERS PLAN FOR SAFETY

May Take Advantage of 60-Day Withdrawal Clause of Law.

## NO CAUSE FOR ALARM AS TO SOLVENCY

Meeting to Forestall Runs and Prevent Shipment of Money Abroad.

A meeting of the presidents of the savings banks of greater New York has been called for this morning at 9:30 o'clock at 61 Broadway by Eugene Lamb Richards, Superintendent of the State Banking Department. The meeting will discuss the advisability of taking advantage of the sixty-day withdrawal clause of the banking law, and is not due to any unsoundness in banking conditions.

Should it be decided at the meeting to invoke the sixty-day withdrawal agreement between the depositor and the banking officials, it was learned yesterday, an agreement will be arrived at whereby the depositors will be allowed to withdraw a percentage of their savings if they choose to do so.

Calling the meeting was deemed advisable, in view of the European war, to prevent needless runs on the savings institutions.

The action to be taken by the private banking institutions is as yet problematical.

The private banks, which up till last April were under the supervision of the State Controller, are now privately under the control of the State Banking Department. It was originally provided that all private banks that did not apply for a license by July 31 could not receive deposits of private money.

The action to be taken by the private banking institutions is as yet problematical.

The sixty-day law, it is considered by the conservative, will not only protect banks from runs in the existing conditions, but will also tend to prevent the shipment of money to European nations.

It was learned last night that a letter was received yesterday by all the heads of private banking concerns, about seventy, in the greater city, calling their attention to the law which prohibits the transaction of banking business on Sunday. The letter was dated Saturday night by Superintendent Richards. Prior to the enactment of the law which transfers the supervision of the banking agencies, the private banks were accustomed to remain open on Sundays, especially in the foreign settlements throughout the city.

While there is no cause whatever for alarm as to the solvency of any of the banks of the city, there is a feeling of unrest among the foreign element, particularly those whose home countries are at war or are likely to be at war.

At the close of yesterday and up to a late hour last night Superintendent Richards was in conference with the heads of the local savings and private banks.

## GERMANY ACCUSED OF FORCING WAR

List of Charges Issued to Show Aggression on Part of Kaiser.

London, Aug. 2.—The French Embassy in London to-day issued the following statement:

"German troops have invaded Luxembourg. Germany has violated the neutrality of Luxembourg. This neutrality was established by a treaty negotiated and signed in London in April of 1867. Ratifications of this treaty were exchanged in London on May 30, 1867."

"Article II of it reads as follows: 'The Grand Duchy of Luxembourg will be a state perpetually neutral. The powers which sign the present treaty declare themselves as bound to respect this neutrality and to make it respected by others. This neutrality is placed under the guarantee of the powers which have signed this treaty.'

"The British Ambassador at Berlin asked the German Secretary of State for Foreign Affairs whether Germany was prepared to respect the neutrality of Belgium. The German Secretary of State for Foreign Affairs declared that he was not able to answer. The neutrality of Belgium has been established by a treaty signed in London."

"The German Ambassador at St. Petersburg notified Russia of the declaration of war by his government when negotiations were pending between Austria-Hungary and Russia."

"At the very moment when Austria-Hungary had declared that she was prepared to consider the matter of the Austro-Serb conflict with Serbia, or with a neutral power on behalf of Serbia."

"The German Ambassador at Paris yesterday morning had an interview with the French Prime Minister concerning the Austro-Serb conflict and the decision reached by Austria-Hungary to consider the matter with Serbia or with a neutral power speaking in behalf of Serbia."

"France was asked to tell what she would do in case of war between Russia and Germany, and the German Ambassador at Paris began to prepare everything for his departure from the French capital."

"July 31 Germany called to the flag the last five classes of her reservists. This she could do by means of the martial law proclaimed by Germany, which permitted her to keep this news secret."

Consequently, "July 31 mobilization was going on in Germany."

In spite of this France waited until August 1, at 5 o'clock in the afternoon, to order a general mobilization. This was done for the purpose of making it clear that she was not the aggressive power, and also that she might be able to claim British support."

"General mobilization was ordered in France August 1 at 5 o'clock in the afternoon. The day of mobilization began August 2 at midnight."

The French Embassy issued another statement, as follows:

"French territory has been invaded at Cirey, and German troops are marching on the fort at Cirey. This act has been committed without a declaration of war. The German Ambassador is at present in Paris."

Luxemburg, Aug. 2.—The Minister of State of Luxemburg has received a telegram from the German Imperial Chancellery declaring that the military measures taken by Germany in Luxemburg do not constitute a hostile act against the grand duchy.

While the Metropolitan Club continued to meet the demands for crop moving and other purposes.

## \$100,000,000 TO MEET MONEY CRISIS

Continued from page 1

(reference) were going on members of the New York stock exchange were in conference at the Brooks Club. It was an informal affair, the chief subjects being the efforts to make it appear that the curb market is to open for business again to-day and the disposition that must be made of the immense volume of stocks now on the ocean for Europe consigned to New York houses with drafts attached. It is estimated that at least 300,000 shares of an average value of at least \$80 a share are now in transit in this way making approximately \$25,000,000 at a conservative estimate, that must be provided to care for them.

There was no one about who could say how this demand would be met, but it is understood that a special committee of the exchange will take up this matter this morning. As matters stand disposition of these stocks is very largely for the banker to decide. Some members of the exchange who have securities coming to them expressed the opinion that a moratorium pressed the exchange will take up this matter this morning.
